West Fargo High School Yearbook 1974 - 1975

Becky

Pam

If I could save time in a bottle
the first thing that I'd like to do
is to save every day 'til eternity passes away
just to spend them with you.

If I could make days last forever
If words could make wishes come true
I'd save every day like a treasure and then
again, I would spend them with you.

— Jim Croce

You Know You're a Freshman When...

...you find out where all your classes are but realize that none of your friends are in any of them.

...you finally know who all the people are on the football team and the season ends.

...your locker finally works but you find out you're using the wrong one.

...you and your friends are finally allowed to go places at night but you can't go anywhere because no one has a driver's license yet.

You Know You're a Sophomore When...

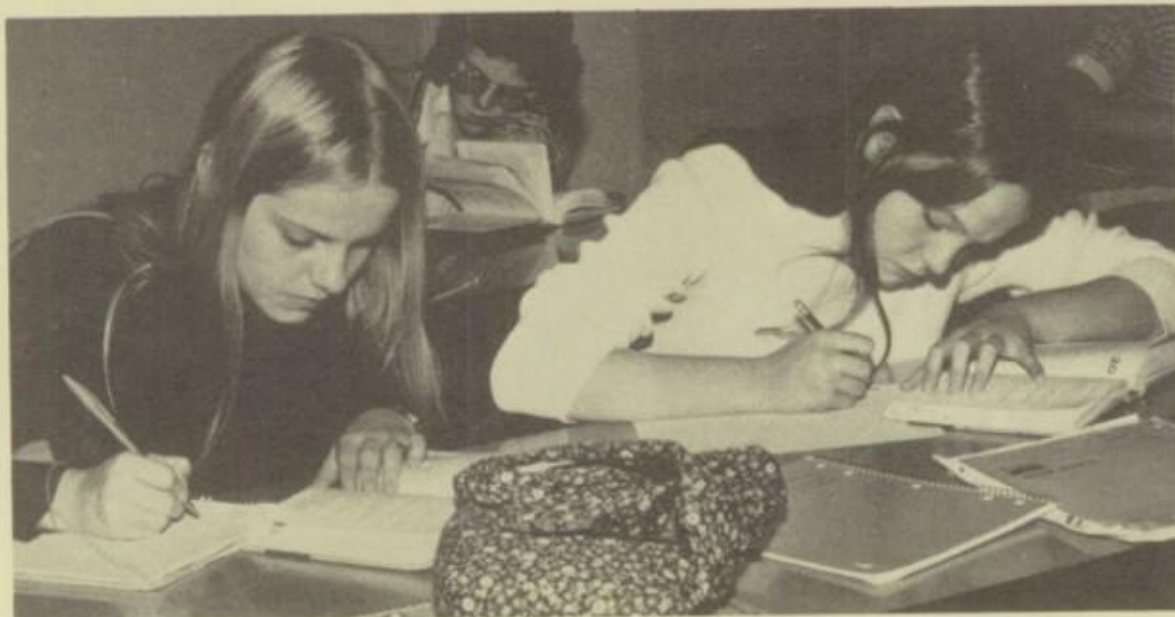

...people start pronouncing
your name correctly.

...you don't know anyone else
in the school except the other
sophomores.

...you get to know some of the
other people in the school and
wish you hadn't.

...you go back to the Middle
School and people have forgotten
who you are.

You are my friend. . .
I say these words in gentleness today,
And stretch my hand in tenderness to you.

What is a friend?
Is he just one who shares a moment's laughter,
Or holds you to a certain rigid scheme?
Ah, no! My friend is one who takes each
note that falls
And makes of them a song to fit my dream.

What of my faults?
I shall not know whate'er they be,
For you'll not point them out for me to see.
But I shall walk a nobler, sweeter path
Because my friend has faith and trust in me.

And so I say once more,
You are my friend. . .
And for this cause I'd fight or live or die!
For I can bring my best or worst to you
And know that only kind and gentle hands
Will sift and find some good before they're
through.

-Bille Shoecraft

A TRUE FRIEND IS THE BEST POSSESSION

POSSESSION-21

You Know You're a Junior When . . .

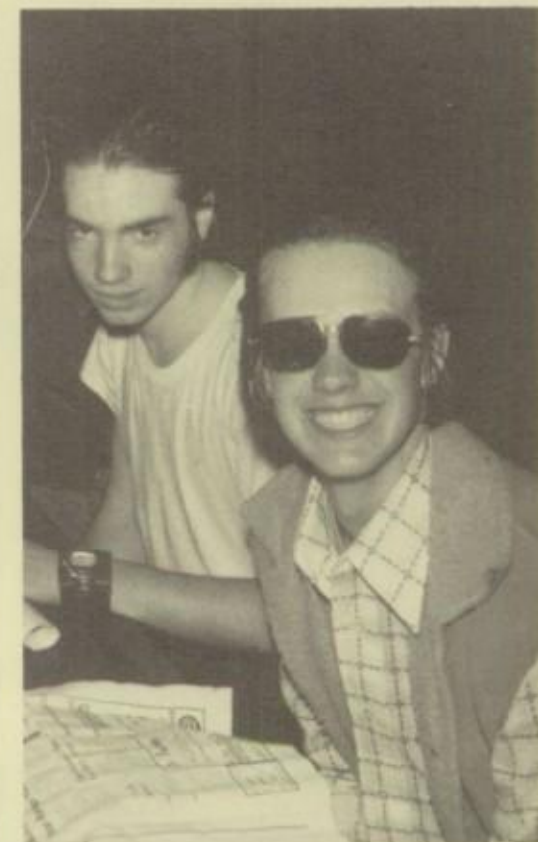

...your relatives stop asking you
what it's like to be in the high
school.

...you get to make some of
your own decisions and wish
people would start ordering you
around again.

...you get so involved in school
projects that your family thinks
you ran away from home.

...you are no longer stepped
on in the hall.

September '74

A locker that won't close, a locker that won't open...A mixed-up schedule-cursing the computer...10 million new books...Write your name on the 4th page...Scheduling meetings...Getting the same old grumpy teachers, meeting new grumpy teachers..."Welcome back to school" from Leidal...Falling asleep in study hall...Seating charts...Late for class...Exhausted...Filling out forms...Spelling out your name in every class...Completely confused...Called to the office...Bored to death...Driving around at noon...Dying of the heat-looking out at the sunshine...Talking over summer experiences...Seeing people you haven't seen for three months...

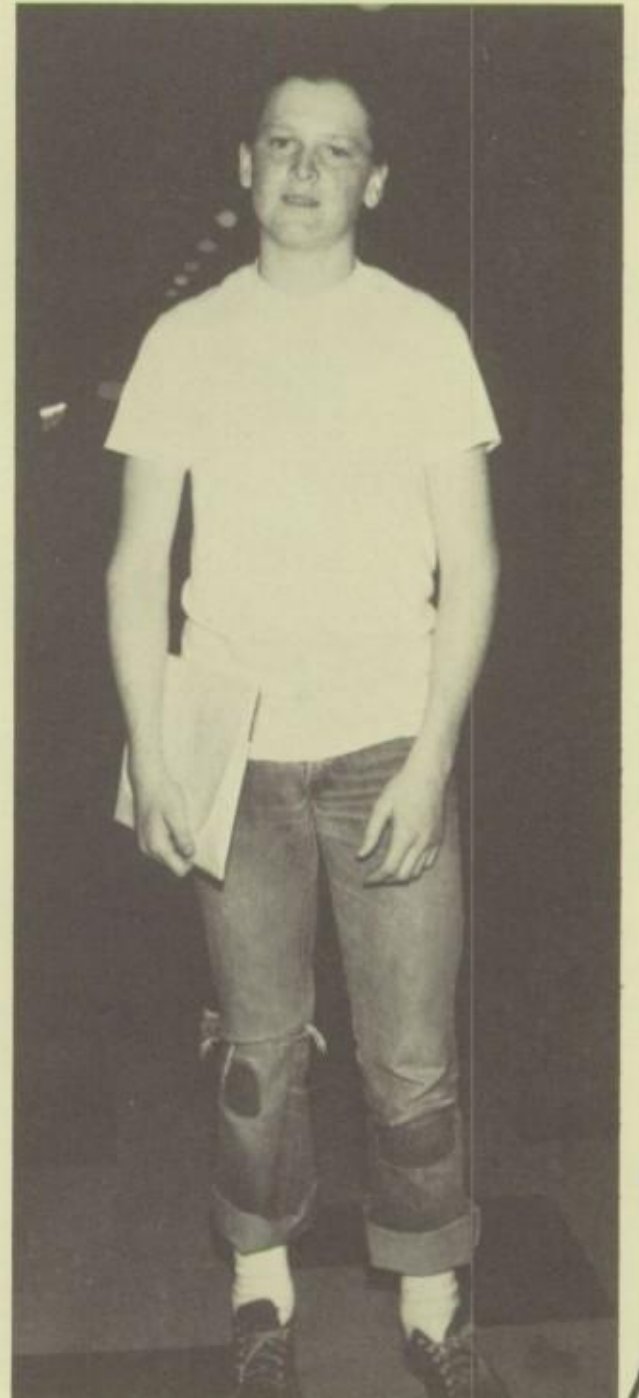

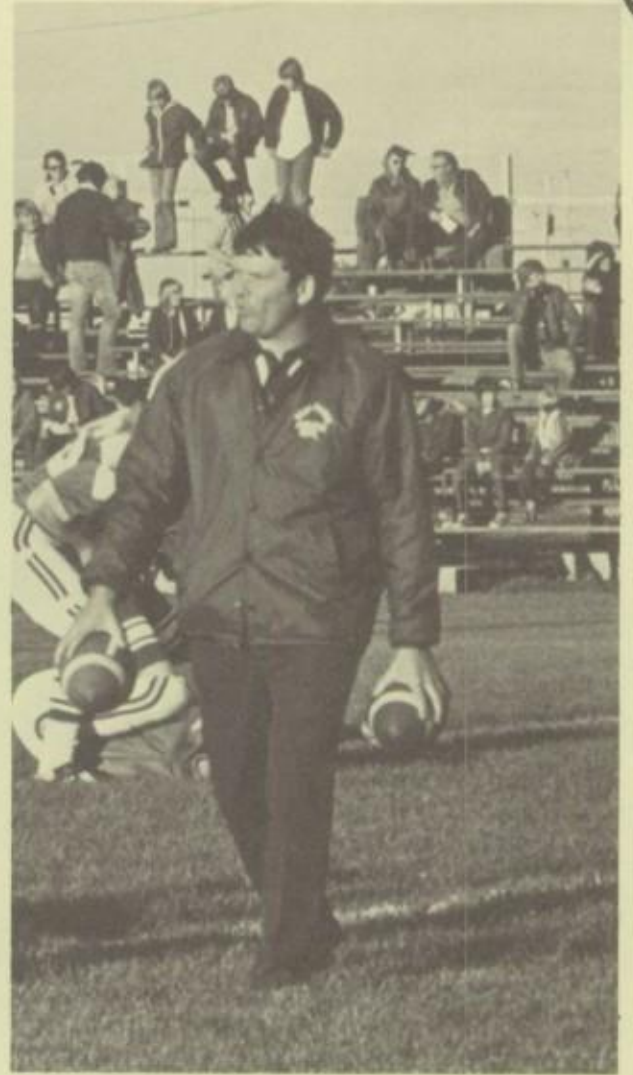

Time it was and what a time it was,
it was a time of innocence,
a time of confidences.

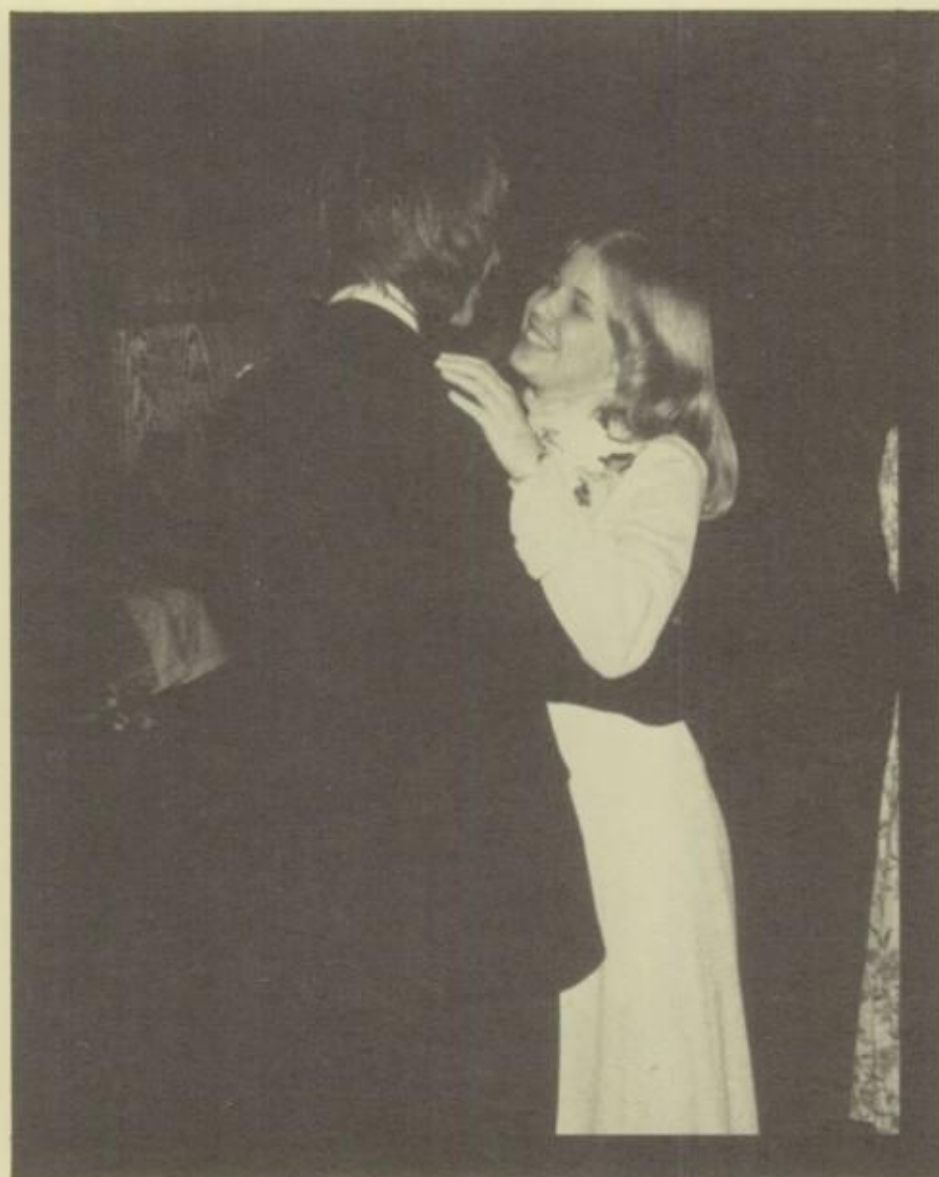

Long ago . . . it must be,
I have a photograph.

Preserve your memories,
they're all that's left you . . .

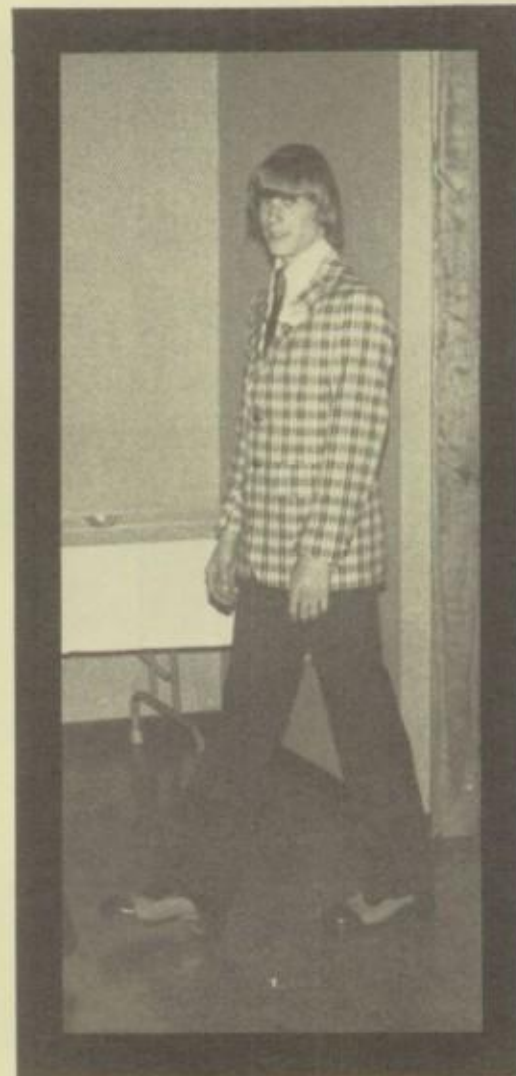

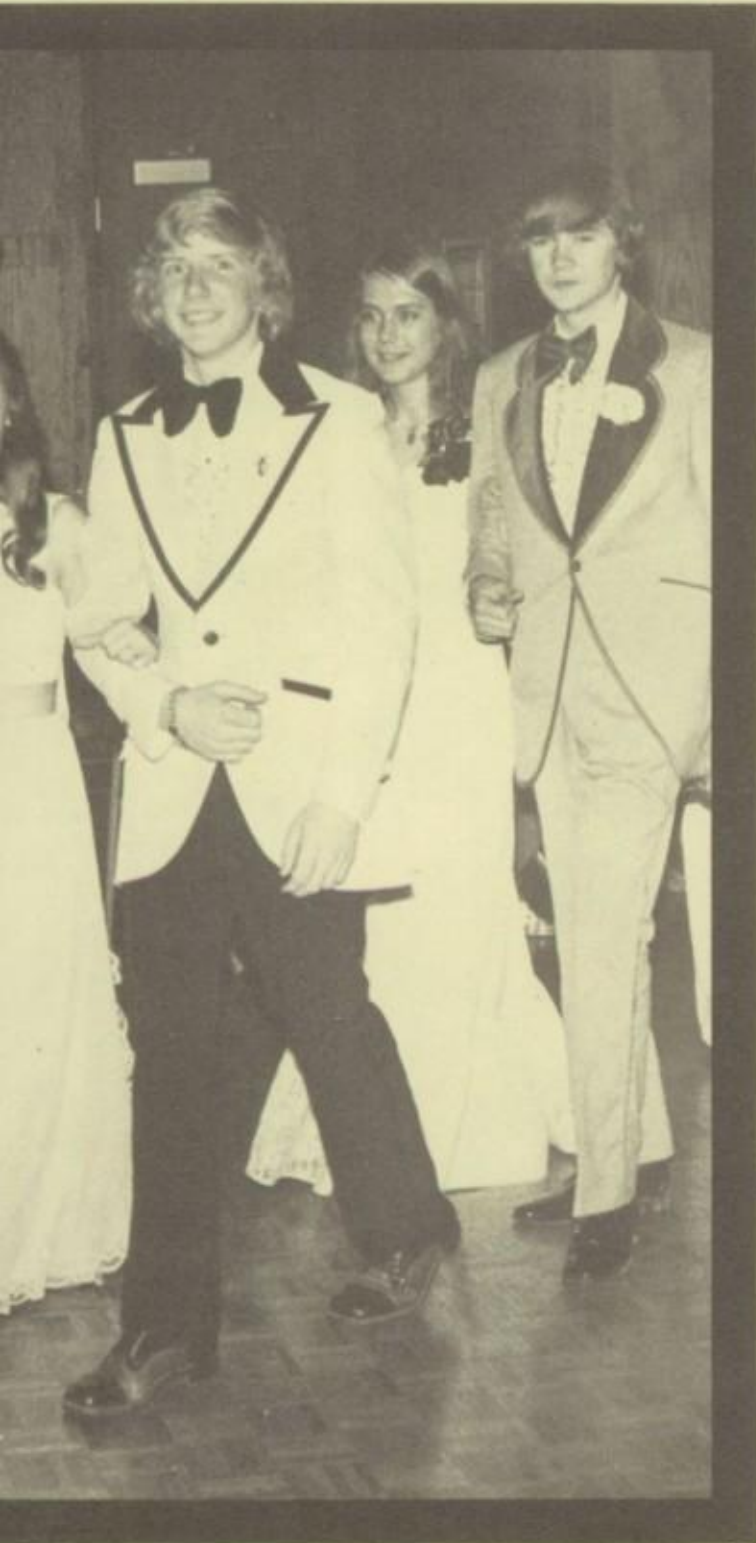

The Way We Were

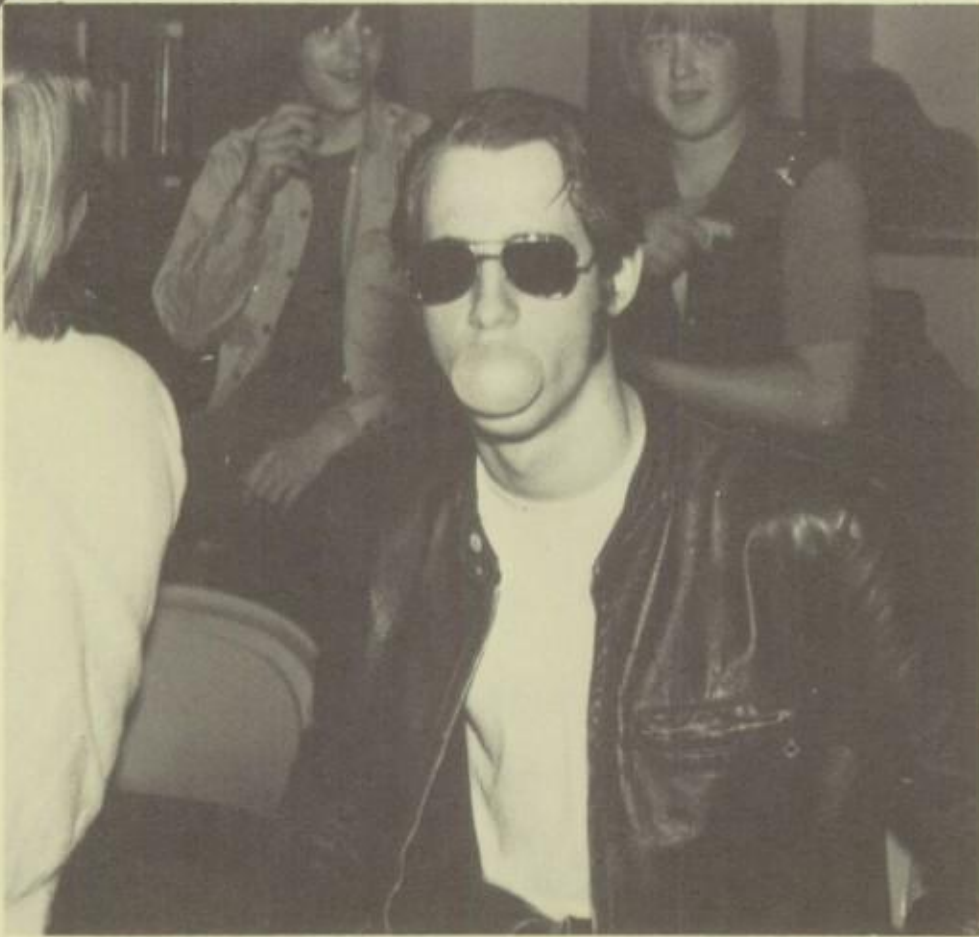

Prom '74

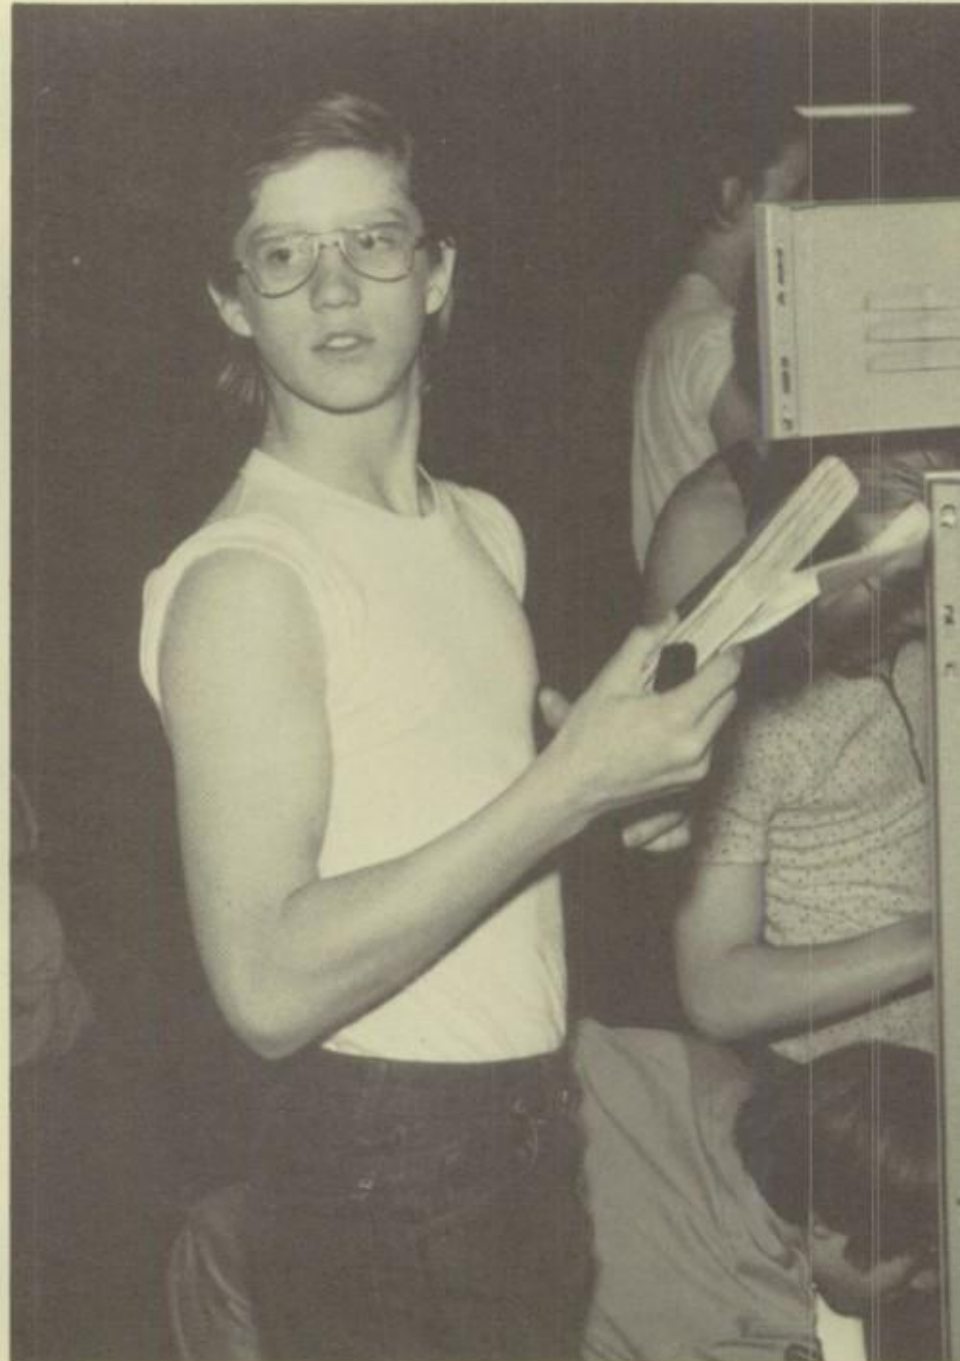

The special night had finally arrived. The young ladies looked glamorous; the gentleman squirmed and itched in tuxedos. "Are you having shrimp or chicken?" Toastmistress and Toastmaster poured out the jokes, to the dismay of an audience who didn't laugh. The dancing was beautiful - however, the faculty really outshines the rest. It looked like a thousand carbon copies of Fred Astaire and Ginger Rodgers. Post-prom features a rock band, a rapid departure from the orchestra. The night had passed to morning, but no one noticed. After all, this was not any ordinary gala - it was prom.

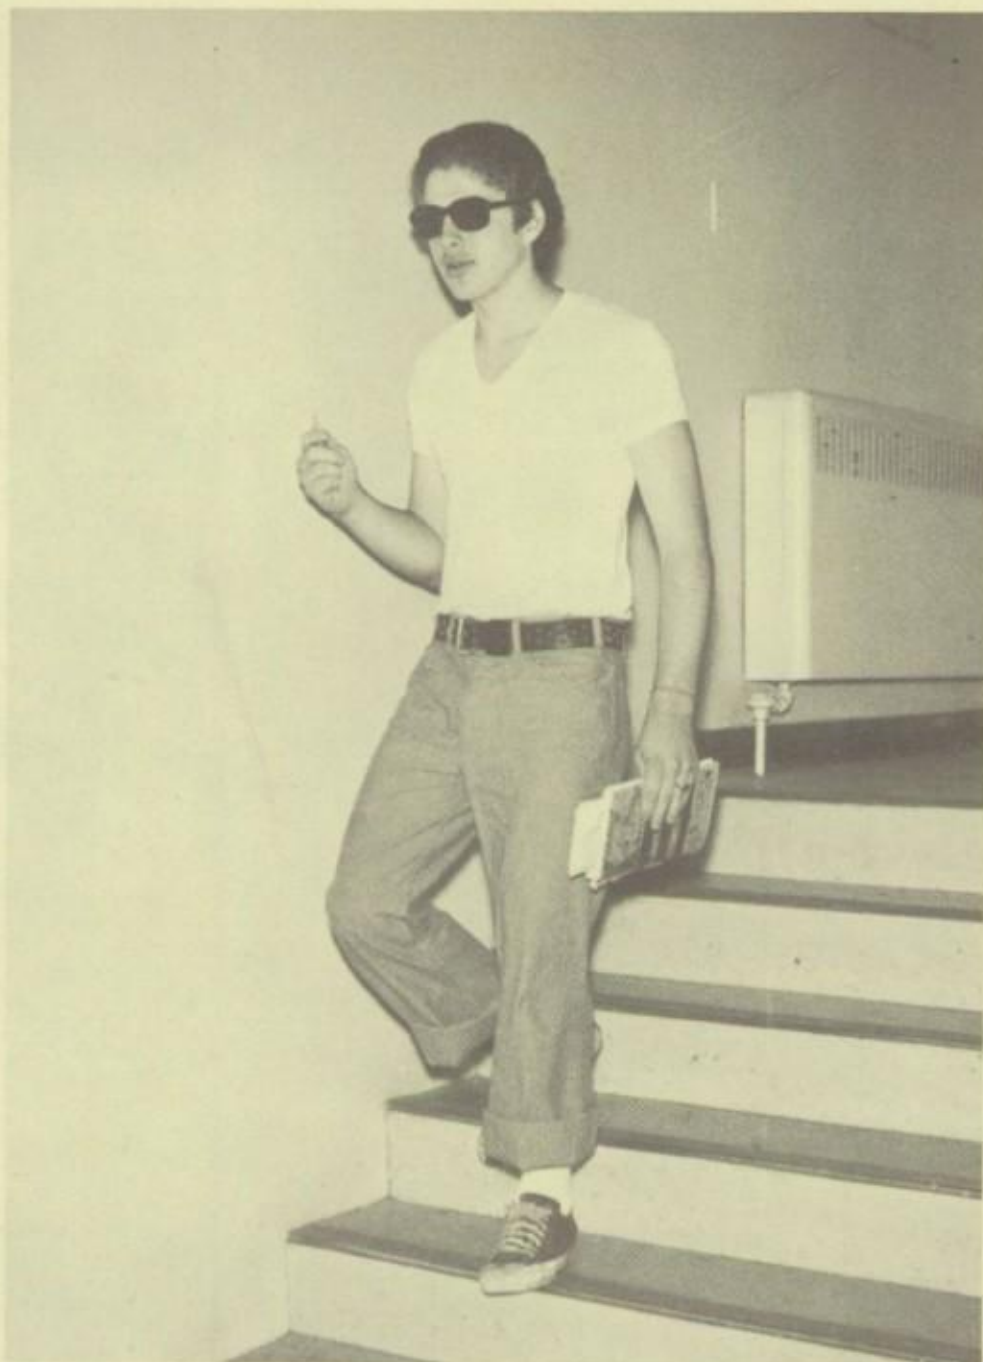

Rock-n-Roll Is
Here to Stay

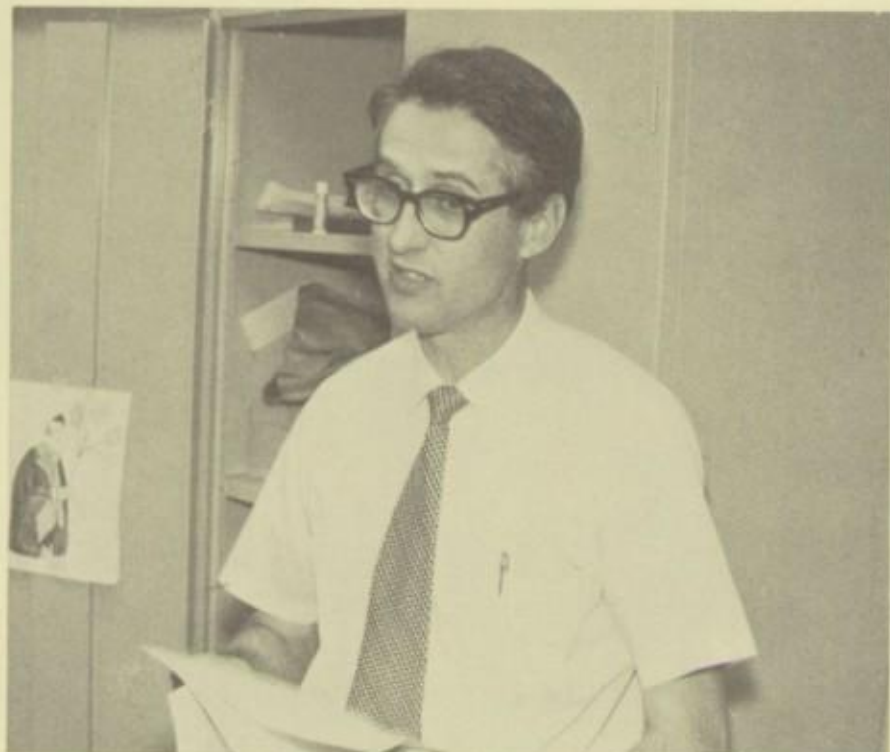

It was a "blast from the past", a flashback to the years when we were born. The girls wore bobby socks and pleated swirling skirts, and cried over Ricky Nelson. The guys looked tough and greasy; they had it "made in the shade". The dance topped off a day of fun. Johnny Mercury and the Four Cylinders supplied the music - "Hound Dog" and "Barbara Ann." Kids did the Lindy hop and jitterbug, and those who didn't know how to dance just moved to the music. There was a dance contest, with the winning couple receiving a genuine hubcap.

What have I done,
Where have I been?
What have I seen,
Who have I helped on the
way?

Nothing, nowhere, no one!
So is it any wonder I am
here alone?

For I have not given,
I have not loved,
The same I reap.

I live, I shall die
The same for you.
So while you live,
Be not a fool as I.

Freshmen Cheerleaders for 1974-1975 are Left to Right: Debbie Hage, Kim Kautzman, Linda Fritz, Debbie Eicholtz and Pollie Johnson.

The 1974 J.V. edition of the "Pack" proved to have a most successful football season, ending the campaign 5-2-1. Victories over Jamestown and Wahpeton and a 22-22 tie with Shanley were the highlights of a great year for "Packer" J.V. football fans. The Packers outscored their opponents 115-51 and lost the two games by a total of 3 points. It should be a great year for the varsity come next fall.

Oh no, not another hard practice...come on coach, give us a break...Alright, we only have to do 40 push-ups today...decent, it must be because we have a meet with Grand Forks tomorrow...no food tonight, and I still have 3/4 of a pound to loose...I can always spit in a cup on the bus...THE BUS!ohhh, I'll have to get up a 6 to get to school on time...if I work out hard, I might be able to eat one or two meals this week...wrestling is fun I think I'll join again next year.

A-Squad Cheerleaders: Jackie Nygaard, Jan Haug, Lori Haas, Diane Johnk.

This was the first year of tennis for West Fargo. The team was quite unorganized at first, but then we got our fantastic coaches, Mr. Thoreson and Mr. Clark, and things got going. (ha ha) We only played five games this year, and didn't do too bad. We did pull off a few ties, and once we actually won! I hope next year a lot more people guys and girls, will join. I think it's great that we have teachers who are willing to take the time to get a tennis team going.

Golf Team: Coach Flath, Steve Levin, Dan Brekke, Steve Krebsbach, Larry Barta, Rick Samson.

“A Hang Nail Is No Reason to Skip Practice, Bill!”

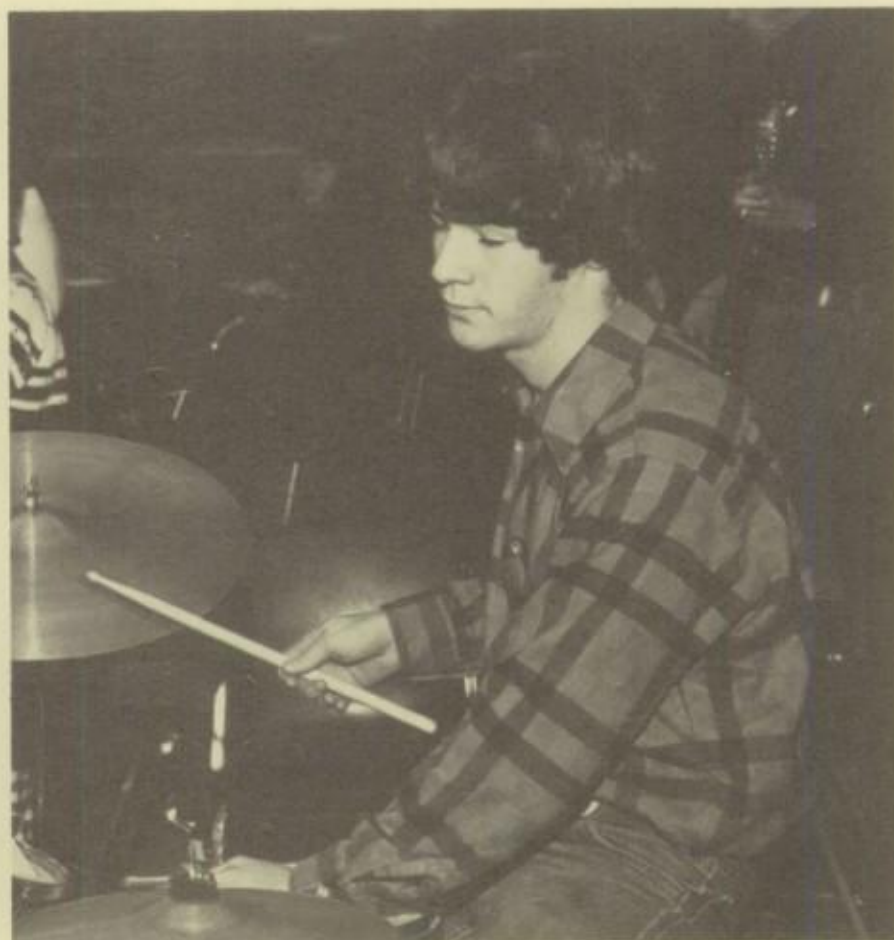

Cross Country is a sport which requires a great deal of self discipline and hard work. It serves as a great method of conditioning for other sports, and for me, was a lot of fun. The 1974 season was a very memorable one. We almost literally started from scratch, but through a lot of effort became a reasonably successful team by the end of the season. We wanted to prove to others and mostly ourselves that we could do it, and even though the work was easy, we achieved a certain amount of success throughout the year. Long distance running is sometimes tedious and dull, but our team was very closely knit, and we enjoyed working together in becoming a better team. All in all, the season was fun and rewarding and I thank Coach Dhanke for all he did—without his efforts it wouldn't have been possible for us to achieve what we did.

"Shut up, Leonard...the Pup...the Marty Special ...Leonard Skynard... Koz and the river trails... Wylers...Gundy don't puke...Dale Nixon... Romeo...Nice, easy 8 mile run."

President Scott Hedin is involved in many activities like spending the funds. Beth stayed in the club till we ran out of money, then she quit. Linda Wieand was taken out of her job as Treasurer. It seems we were running out of money a little too fast. No, not really. But everyone in the club hates baking but loves money. This year we went to Grand Forks for a German Convention and in August some of the members are going to Tennessee for the National German Convention. Barb likes the club but is involved in cheerleading and doesn't have much time but she always remembers her cookies. Rhonda won a trip to Tennessee. We all hate her. Not really. We had a lot of fun this year.

This year the Science Club tried something different. Do you remember the commercials on TV testing their products against others? We proved that Bounty is the quicker picker upper. Did you ever try to hold a screw-driver after being dipped in STP? It's impossible. The club is loosing more members every year, so join up next year. There are many things you can do in the field of science.

We may not look too smart but who needs brains to run the TV camera? No one ever watches what we tape and the only reason we joined was to get out of class. Who else can pick when they miss class? And you thought we weren't smart.

We've got a lot of projects this year, starting with home coming. More time is going to be spent listening to the student body and those ideas that we dismissed may go as possible causes for a revolt of the students. Some of the ideas are a fuseball table in the commons or open gym, setting up a schedule of classes without homeroom, and open campus. The administration so far has been dragging it's feet, like on the pop machine and no hall passes, but things could be worse -

The objectives of Industrial Arts Club are to raise money for the club, and to complete one or more projects during the year. This year we raised money by selling candy bars, peanuts and boxes of candy. Projects included glass cutting, refinishing desks, and building your own design from wood.

I thought you were going to get the tablecloth... When is that turkey coming... The party was so big! How big was it? It was so big that we forgot who came... Six people parties... Table for 13!... The Singing Sisters-"Hey, That's no way to say good-bye"... Oh my gosh, I forgot to put in that announcement!... When are we going to have a party?... Really!... Another flat tire, Dwight? Absolute silence... Don't everybody talk at once!

This year was a pretty good one, as far as the Packer was concerned. I think we put out some good issues. I was especially pleased with the editorial page. The newspaper staff worked hard to put out a good paper, and they did. The only thing that was lacking, as in years past, was reader contributions. There were only a few instances when anyone wrote a letter to the editors. We will publish almost anything, within reason, as long as it is signed. It is disappointing to hear so many criticisms and strong opinions from people who lack the gumption to put their views in print. The power of print is mighty, indeed. One can get more across to more people by having something printed than in any other way. A letter to the editors is a good way to get something in the paper, but by no means is it the only way. The Packer staff would gladly welcome any other contribution you might have. A short article on some activity, a coming event, or some other story would be appreciated not only by the staff, but by the readers. It gets a little tiring to read stories written by the same people in every issue. A change of style would be welcomed by everyone. If you want to have a good paper, it is going to take more than just a small group of people can contribute. It is easy to crit-

provide information about their activities.

In recent years the federal government has ordered drug companies to develop child protector caps for their bottles of aspirin, cold capsules, antibiotics and anything else made to cure the normal man's every pain.

The directions instruct the consumer to "line up the arrows and pull and push down and twist." These ideas have probably saved the lives of many children who couldn't read the instructions on the bottle.

I suppose that I am one of the lucky few who have had the experience of realizing a "dream of a lifetime." Going to Germany last summer as an A.F.S. student was certainly such an experience.

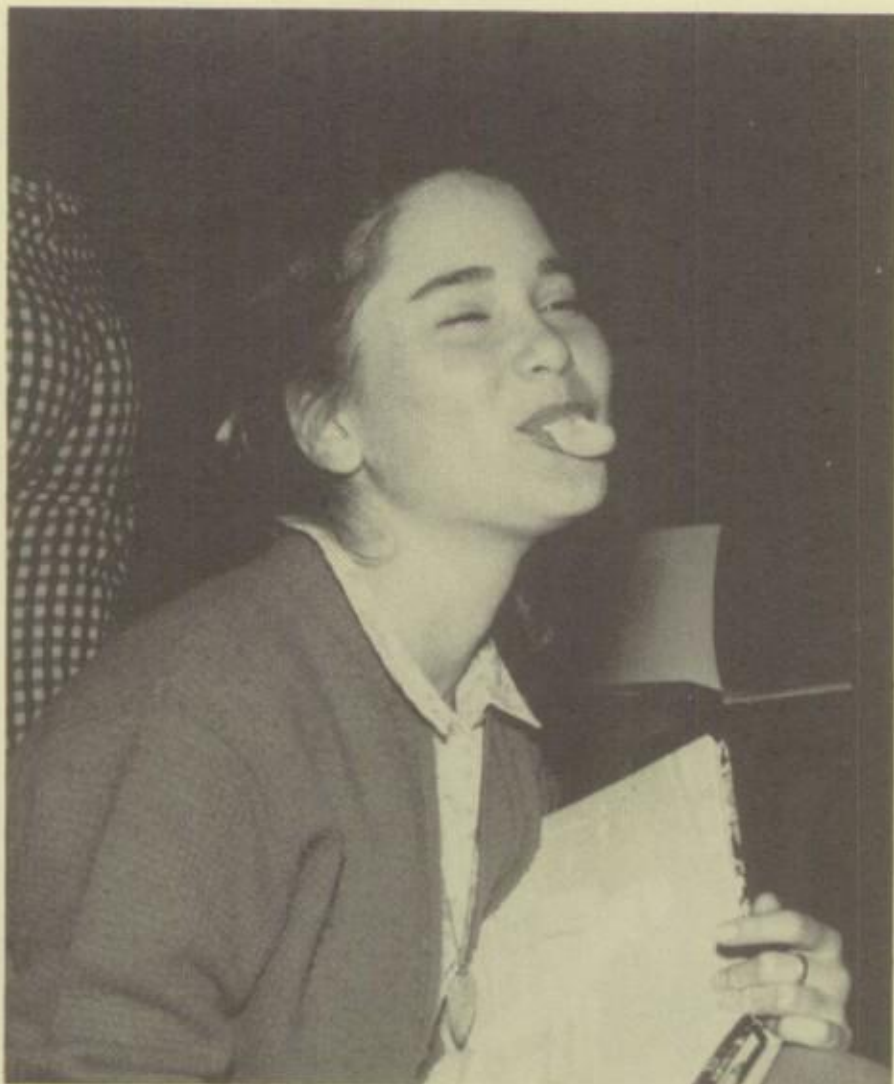

One usually thinks of such a trip solely as a vacation, but mine was not-rather, it was a genuine learning experience.

My memories began with an eight-month waiting period from the time I applied until I learned that I could go. Afterwards, of course, there was joy; quick preparations to leave; and then fear concerning what I had gotten myself into. After I left home, the time started to fly. First I was in awe of New York; and then when I got to Germany, it took me a couple of weeks just to get used to the fact that I was really there.

I finally settled into my family life, where I spoke only German for two entire months. I met many wonderful people and had equally wonderful times. The hardest and saddest time was when I had to leave. It was then that I fully understood and felt a part of the German way of life. The time had passed much too quickly.

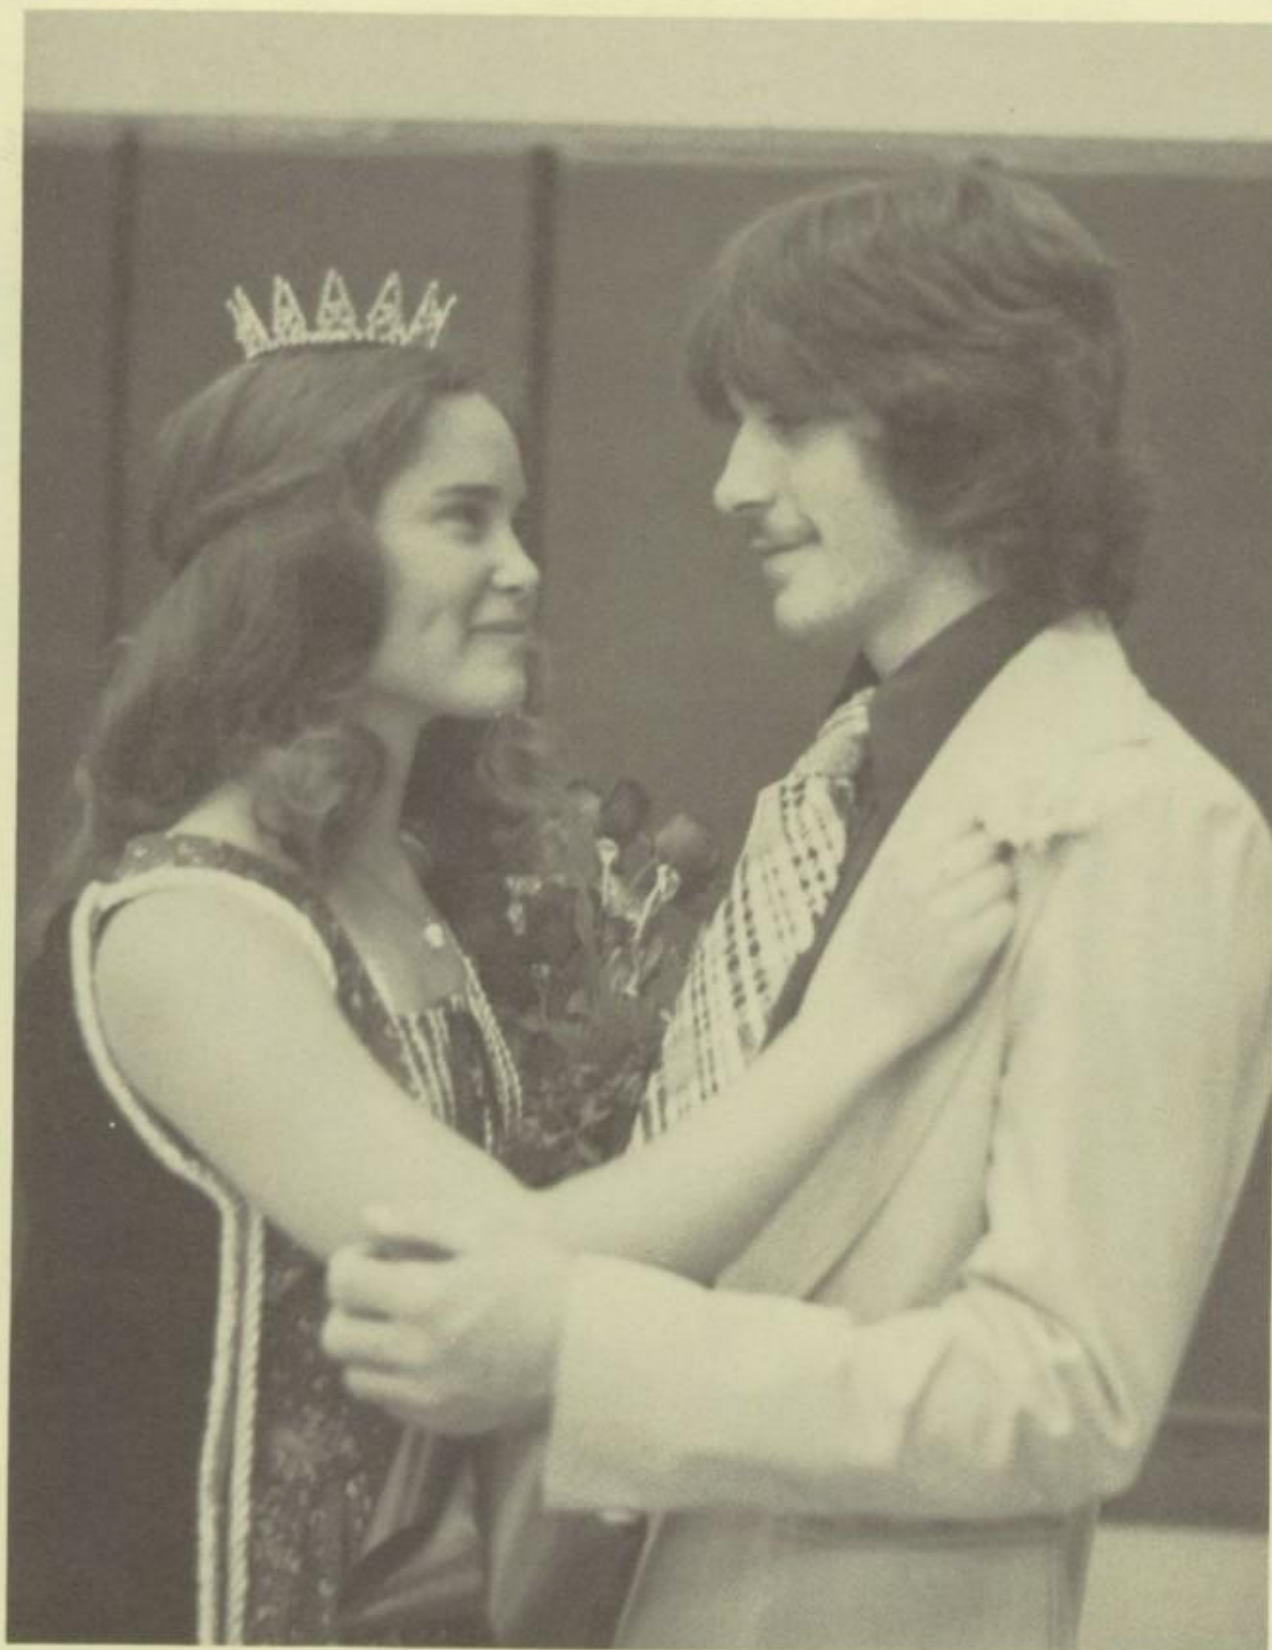

All of my experiences added up to a summer which was better than any vacation, an experience in which the many benefits and the knowledge gained are immeasurable-and also one filled with lasting memories.

Away from home for the whole summer... Living with a new family... three sisters and one brother... three square meals a day-of rice... first eat it-then ask what it is... coconuts, mangos, pineapples, bananas, papaya, guavas... a case of the D.A.'s ... homesick... school uniforms... singing the Star Spangled Banner in front of the whole student body... Hot?! 84 at 11 PM... siestas in the afternoons... girl's basketball-Filipino vs American... learning Filipino songs and singing them all wrong ... doing folk dances in the native costume... being stared at because you're different... How come you're so white?... being the minority... calasas, jeepneys, and tricycles... paddling down the river on a bangka... riding a carabao... farmers in their heads and cigars in their mouths... letters from home-10 in one day... bargainig on market day... pesos and centavos... the slow rythmn of the tropics... living in a bamboo hut for 3 days... lazy days on the beach... swimming in the ocean... getting a great sun-burn... warm tropical nights... laying in a hammock watching the moon rise over the mountains through the palm trees... standing on the balcony at night and being serenaded... winding mountain roads... Bagiuo-City of the Pines... native wood carving, basket making, weaving, and silver smiths... Miss Universe Pageant... Manila Bay at night... Rizal-the national hero... hey, chicks!... climbing old Spanish towers... crazy Americano... learning to laugh at yourself... wading through flood waters up to your knees... mosquito nets... making and cherishing new friends... a flood of tears at the airport... The heartache of leaving but the excitement of going home... memories...

DALE WESTALL - MC

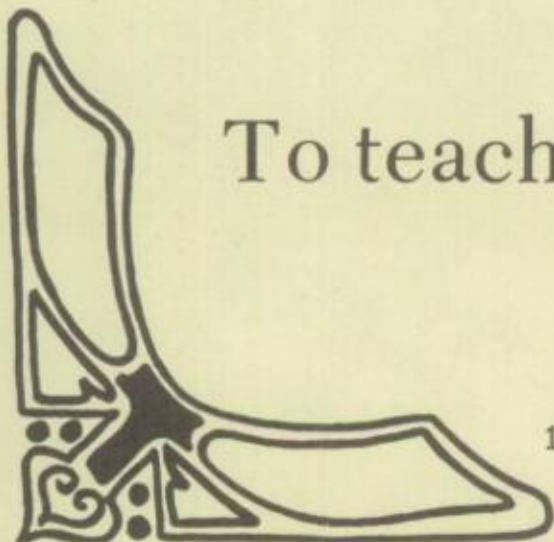

Reminiscing

Where has the time gone? 29 years in West Fargo High. How different in 1946 when I started as a teacher and principal. The complete high school faculty was made up of 8 teachers including the Supt. and Principal. This is quite a difference from the 43 we now have. When I started in West Fargo we had plenty of classrooms - even a couple extra. Those were the days! Time marches on. One of my pleasant times was the year I was honored by having the Yearling dedicated to me (1955). At that time we had 12 teachers and in 1958 a secretary was hired. In 1959 I gave up being a principal - 12 years at that job. Oh my! School kept growing and more teachers were hired. Years went by-then came new ideas in teaching. Modular scheduling, contracts, commons, resource centers (without taking roll) workin for a broader education in many different ways. Thinking about it I wonder - were all these changes good? I do hope they are. I am coming to the end of my wonderful teaching career. I have enjoyed it and I hope with my help that these many students could profit a little with the help that I have given them through the years.

To learn and never be filled,
is wisdom;
To teach and never be weary,
is love.

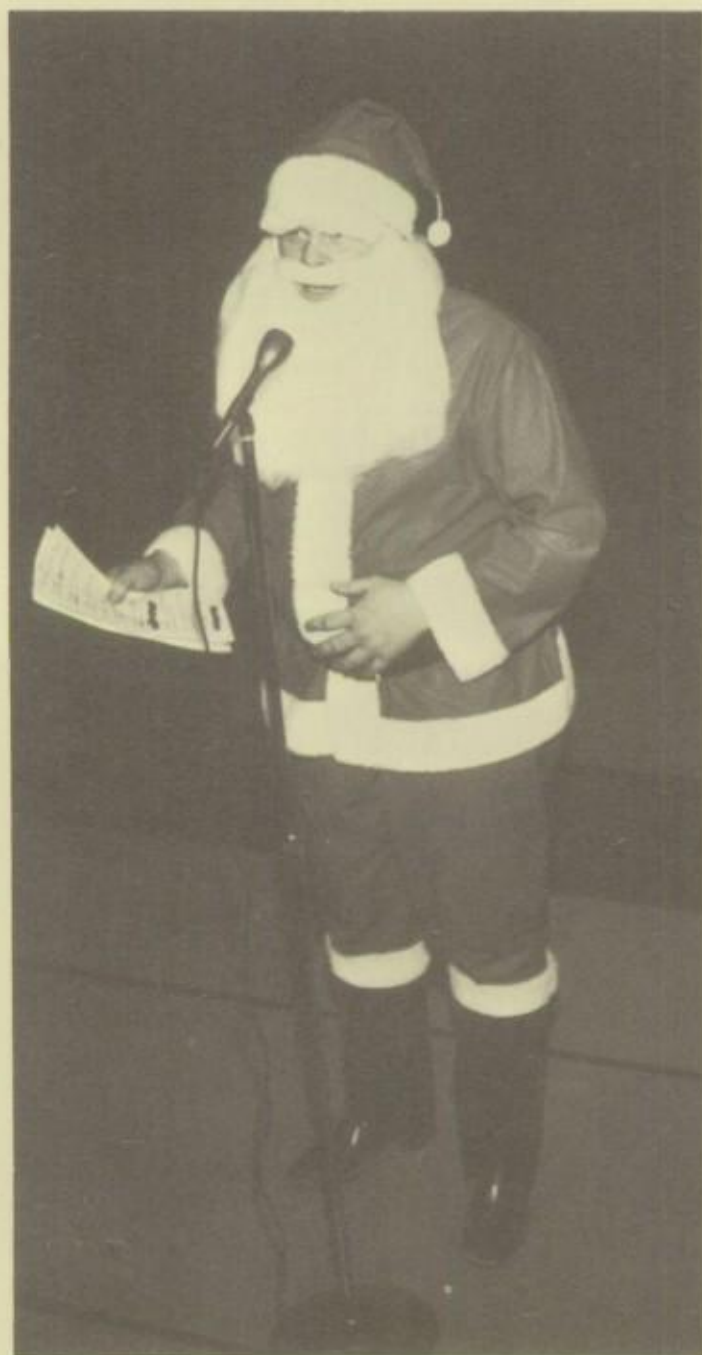

Since I have been here I have learned how to talk and understand better. This make me happy. But the thing that makes my happier is that all of you at West Fargo High School have helped me. Not only with the language but also in other fields, you are my firends. The smiles that I see in the hallways and in classes mean more than the words that you can say and most of the time I don't understand. The subjects that I am taking are "just great". I don't know if it is the subjects themselves or because the teachers are nice. I know that some of you do not agree with me, but to those I want to tell that you must consider yourselves fortunate to have somebody that teaches you. My country is so poor that they can't even afford teachers and schools which are the bases for education and living. Something that I will never forget is my first speech in Speech class. At the beginning I was nervous, my glasses began to slide down my nose, my legs shook. Yes, I was nervous, but not because of you, my classmates, but because it was the first time in my life I was in front of a class talking of my country. You understood me which made me feel great. Now my favorite subject "SNOW" is beautiful, the word is really little in comparison to what it is for me. When I see it it seems to me like I am just looking at a beautiful picture, is impossible to believe that I can touch it, that I can play with it. "IS FUN." I had the opportunity to meet different families, to be in different groups and clubs, and in all of them I had been received well. I didn't think that I would find person like you here. You are really, really nice people. I am happy to be here, as a West Fargo High School student, as Mr. and Mrs. Krogh's daughter, Nancy's sister and like your friend. For all of you my best wishes of success and my great thanks for everything.
